

Lamphills How to Set up Linktree Instagram Template

Step 1: Sign Up/Log In

Go to [Linktree](#) and sign up for an account or log in if you already have one.

Step 2: Add Links

Once logged in, you'll be directed to your Linktree dashboard. Click on the "Add New Button" or similar option to start adding links. Enter the title for your link (e.g., "Website," "Shop," "YouTube," etc.). Paste the URL of the website or page you want to link to. Repeat this process for all the links you want to include.

Step 3: Customize Appearance

Explore the customization options to match your brand or personal style. You can customize the colors, background image, button style, and more. Preview your Linktree to ensure it looks good and is easy to navigate.

Step 4: Arrange Links

Drag and drop the links to arrange them in the order you prefer. This helps in prioritizing which links appear first to your audience.

Step 5: Set Up Pro Features (Optional)

Consider upgrading to Linktree Pro for additional features like analytics and more customization options.

Explore the Pro features and decide if they're worth the investment for your needs.

Step 6: Copy Linktree URL

Once you're satisfied with your Linktree setup, copy the unique Linktree URL provided.

This is the link you'll paste into your Instagram bio.

Step 7: Update Instagram Bio

Open your Instagram profile.

Click on "Edit Profile."

Paste the Linktree URL into the "Website" field.

Save your changes.

Step 8: Test and Update

Click on the link in your Instagram bio to ensure it directs users to your Linktree. Periodically revisit your Linktree to update links or make any necessary changes.
