

Checklist for Compiling the List

Identify Reporters:

- ✚ Research reporters who frequently cover AI in reputable publications.
- ✚ Check tech sections of major news outlets like The New York Times, Wired, MIT Technology Review, etc.

Verify Credentials:

- ✚ Ensure reporters have a strong background in technology journalism.
- ✚ Look for awards, recognitions, and professional affiliations.

Evaluate Coverage:

- ✚ Assess the quality, depth, and accuracy of their articles.
- ✚ Check if they cover a wide range of AI topics (e.g., ethical implications, technological advancements, industry impact).

Check Consistency:

- ✚ Ensure they regularly publish articles on AI and related fields.
- ✚ Verify the frequency and recency of their publications.

Include Social Media:

- ✚ Find their social media profiles to gauge their influence and engagement with the audience.
- ✚ Ensure they actively discuss and share AI-related content.

Gather Notable Articles:

- ✚ List some of their most influential or popular articles.
- ✚ Include articles that have had significant impact or have been widely shared.

Explain Importance:

- ✚ For each reporter, provide a brief explanation of why they are influential in the AI field.
- ✚ Highlight their contributions to public understanding and industry discussions.

Format Properly:

- ✚ Use a consistent format for each entry to ensure readability.
- ✚ Include hyperlinks to their articles and social media profiles for easy access.

Review and Update:

- ✚ Regularly review and update the list to include new influential reporters and remove those who are no longer active.
- ✚ Ensure all links and information are current.

Example List

1. Name: Karen Hao
 - Current Affiliation: MIT Technology Review
 - Brief Bio: Karen Hao is a senior AI reporter at MIT Technology Review, where she covers the impact of artificial intelligence on society.
 - Key Topics Covered: AI ethics, machine learning, AI policy, and societal impacts
 - Notable Articles:
 - "How Facebook Got Addicted to Spreading Misinformation"
